

# Sucking slot for AF-C

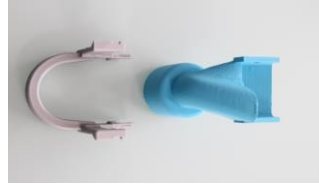

User manual

**Warning ! Only use vacuum cleaners with water filters or fireproof bags.**

Recommended vacuums are the Kärcher AD3, the Thomson THVC 05873BL or the Festool CTL Mini with fireproof filter

The photos are non-contractual, the colors and shapes might change depending on supply

AF-C adapter and common slot.

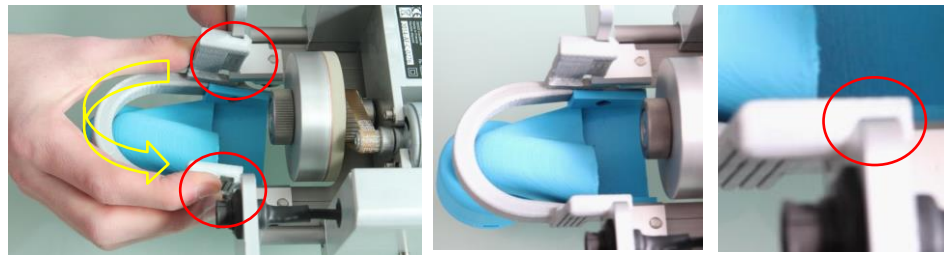

Plug the vacuum cleaner tube in the slot.  
Verify that the notches of the retaining ring move smoothly in the groove and then shove it until the notches are blocked in the housing.

assembly : the adapter must be set on the slot by clipping the two interior nipples in the hollows.

Clip the left indentation and then the right using a slight rotation.

To remove the slot, slightly pinch the two levers, unclip one side and release it by a slight rotation.  
Then, remove the other side.

Most recommended vacuum  
Kärcher AD3
